

An Introduction to Sinus Grafting

Thursday 20 September 2018 at
6.30

Oakdale Dental, 23 Fosse Road Central, LE3 5PU

Aims and Objectives:

Attendees will leave with a good overview of the procedure. Inexperienced practitioners in this procedure, will be able to start assessing their patients for grafting. Mentoring will be needed if they wish to start providing this invaluable treatment option. Experienced practitioners may learn some tips – hopefully they will be able share their own personal feelings on the procedure—together we learn more.

At the end of this lecture we hope you will have a greater understanding of how this procedure can be used to enhance your clinical practice

This Study Club entitles you to 2 hours CPD

To attend this Study Club please contact

Dr Mukesh Soni BDS (Manc VU) MSc (Manc Vu)

Mukesh graduated from the University of Manchester in 1989 and was accredited with a Masters from the same university 20 years later in Restorative & Aesthetic Dentistry. He has owned several practices over the years and now has a fully practice in West London , Twickenham , where he dedicates 70% of his time to dental implant surgery and restoration. Mukesh extensively tutors many dentists in dentistry – mainly in dental Implantology. He lectures extensively in the UK and several worldwide destinations. Mukesh also runs several courses including Practical Implantology- this is an introduction to dental implantology - emphasising on teaching or reinforcing – Predictable, Reproducible and Safe dental implant skill sets. Mukesh also teaches advanced courses on Sinus Grafting. Ridge expansion, Block Grafting , advanced GBR , Introduction to Digital Planning. His dental implant journey started 25 years ago with some of the giants in the field – Hilt Tatum and Ashok Sethi. Now Mukesh is ready to share his successes and more importantly failures. His courses combine both evidenced and outcome based learning.

He says .. “I believe, in sharing my successes and failures. It is from failures I have learnt most in life. Many will have seen my candid and honest posts on Facebook and social media. I am definitely NOT a giant, and I am proud to say that I have and will continue to ‘Stand on the Shoulders of Giants’. Together we always learn more”
